XML-RPC Ping Tool Free

XML-RPC Ping Tool is a small Windows application whose purpose is to help you ping certain websites in order to verify the reachability of hosts. It comes in handy for SEO-related tasks because the tool helps you index your posts faster via pinging jobs. The utility offers support for batch actions, which means it is able to process multiple URLs at the same time. User-friendly layout Although you cannot find a help manual included in the package, the program sports a straightforward layout which can be decoded with minimal effort. In addition, you can make use of preset hotkeys for faster actions. Pinging options XML-RPC Ping Tool offers you the possibility to create a list with the websites that you want to ping. You can type in data directly in the main window or upload the information from a user-defined file. In addition, you can start or stop the pinging process and check out details about the pinging activity directly in the main window, namely URL and number of successful and failed pings. The program allows you to ping several services and check the status of each pinged entry, as well as view the total number of URLs to ping. In case you do not plan to spend a whole lot of time in front of the computer pinging URLs, you can opt for scheduling the process. Tests have shown that the utility carries out a task quickly. It does not eat up a lot of CPU and memory, so the overall performance of the computer is not hampered. Bottom line The final verdict is that XML-RPC Ping Tool provides a straightforward software solution for helping you ping multiple URLs at the same time, and is suitable for rookies and professionals alike. 100% Free AppsGet all your favorite free apps for your mobile and tablet devices. Network Security AppScan or Monitor your Home Networks or Wi-Fi connection with ease. Plus, keep your home safe by securely sharing your connection. Live WallpapersSimple and clean, Live Wallpapers bring your screen to life with beautiful animations. XML-RPC Ping Tool v2.0 XML-RPC Ping Tool is a small Windows application whose purpose is to help you ping certain websites in order to verify the reachability of hosts. It comes in handy for SEO-related tasks because the tool helps you index your posts faster via pinging jobs. The utility offers support for batch actions, which means it is able to process multiple

XML-RPC Ping Tool Crack +

Keymacro is a free user-friendly Windows program for creating macros for common tasks. It supports over 100 keystrokes for more than 50 actions including commands for copying and pasting, searching, copying and pasting files and folders, and creating, editing and deleting documents, e-mails and messages. The program is packed with powerful features such as the ability to create folders and shortcuts to documents, create and edit forms, create and edit MS Word and MS Excel documents, and much more. One of the most attractive features of the program is the fact that you can create and edit macros with your own keystrokes, use the program's built-in help menu and create shortcuts to frequently used actions in one simple step. Furthermore, Keymacro supports regular expressions and wildcards. All you have to do is type in an expression to specify the exact sequence of characters that you want to trigger, and the program does the rest for you. In addition to creating and editing macros, the program also allows you to perform all kinds of basic tasks like copying and pasting, creating and editing documents, e-mails and messages, and more. The program is extremely easy to use and has a sleek and functional interface. In short, if you are looking for a utility for automating some of your basic tasks, Keymacro is an excellent choice. [url= Download[/url] Full MacDaddy Software Review - Version 3.2 v. 2.1 Keymacro 2.1.1 Keymacro Description: Keymacro is a free user-friendly Windows program for creating macros for common tasks. It supports over 100 keystrokes for more than 50 actions including commands for copying and pasting, searching,

copying and pasting files and folders, and creating, editing and deleting documents, e-mails and messages. The program is packed with powerful features such as the ability to create folders and shortcuts to documents, create and edit forms, create and edit MS Word and MS Excel documents, and much more. One of the most attractive features of the program is the fact that you can create and edit macros with your own keystrokes, use the program's built-in help menu and create shortcuts to frequently used actions in one simple step. What's New In XML-RPC Ping Tool?

RPC Ping Tool is an XML-RPC ping tool for Windows. It is not a GUI client of an XML-RPC service. Instead, it helps you to verify the reachability of a set of XML-RPC host name/port combinations by sending a request, looking for an answer, and repeating the request in a loop until it succeeds. The utility can: Ping XML-RPC host names or URLs from a file or the command line, Optionally ping all host names/URLs in a file, Specify the interval between pings, Ping host names/URLs from a list and/or use a specific IP address, Execute a batch action, Generate a report, Ping multiple XML-RPC host names/URLs with a list of servers/hosts, Ping XML-RPC service names from a list, Specify the maximum number of host name/URLs to ping, Schedule automatic pings, and Save pings to a list. What's new in this version: Added Windows 8 support. Fixed a bug that was preventing the program from running on Windows 8 and later versions. If you find this software useful, don't forget to rate it, so other users know about it. Download at Google Code Like it? Share with your friends! If you liked the program, why don't you recommend it to your friends? All source code and documentation are available from the project's website: The program currently requires a 32 bit version of Windows, which should be detected automatically. A 64 bit version is available upon request. About the developer the XML-RPC Ping Tool is an XML-RPC ping tool for Windows. It is not a GUI client of an XML-RPC service. Instead, it helps you to verify the reachability of a set of XML-RPC host name/port combinations by sending a request, looking for an answer, and repeating the request in a loop until it succeeds. The utility can: Ping XML-RPC host names or URLs from a file or the command line, Optionally ping all host names/URLs in a file, Specify the interval between pings, Ping host names/URLs from a list and/or use a specific IP address, Execute a batch action, Generate a report, Ping multiple XML-RPC host

names/URLs with a list of servers/hosts, Ping XML-RPC service names from a list, Specify the maximum number of host name/URLs to ping, Schedule automatic pings, and Save pings to a list.
