.With a variety of feeder accessories, you can configure your hanging feeders to meet your birds' needs. For example, your birds may need supplemental food, daily watering, sunflower or soybean seed, combination of seed and diet treats, and a different type of bird food depending on their needs. The bottom line is your birds' needs change over time, and it's a smart idea to have options available. You can check out the various accessories on the Web for more information. Most feeders come with a 3/8-inch hole in the top, so that seed will fall down through the top hole and into the grid. Many people recommend that you put a smaller hole in the bottom of the feeder, and put your feeders in a sunny spot (but not so close to trees or hedges as to block the birds' access to insects). Placing the feeder just outside the coop is a good location. You can use a regular feeder screen (available at feed stores or online) to keep bugs out, or place a bigger mesh screen above the feeder. Many of us keep our feeders inside where it is warm and dry, but if your birds spend their winters outdoors, you may want to construct a box with a small mesh front door for your feeder (some feeders will come with these). You can remove the box when you bring your birds inside in the spring. Studies in colonic dynamics in sodium-reabsorptive Heymann rats. In the present study, the rate and site of absorption of sodium in the rat colon was determined by means of an infusion technique. It was observed that the rats absorbed sodium in the proximal region of the colon. The net absorption of sodium per min/cm<sup>2</sup> of mucosa in the proximal colon was in the order duodenum less than jejunum greater than ileum less than caecum and in the proximal section of the descending colon. The effect of amiloride on the absorption of sodium in the rat proximal colon was also determined. It was observed that the absorptive capacity of the colon is reduced by amiloride in a dose-dependent manner. The results of the study have been discussed in terms of the possible site and mechanism of absorption of sodium in the intestine. The American Civil Liberties Union is suing to block the Trump administration from building a wall along the southern U.S. border with Mexico. The ACLU filed the lawsuit Friday in
